

Year 4 Curriculum Map - Autumn Term 2024– Cedar Class

Maths

Thousands	Hundreds	Tens	Units
4	0	7	4
4,000	000	70	4

We will be learning about place value including numbers up to one thousand as well as rounding and comparing numbers. We will also learn about Roman Numerals.

English

We will be using the text 'Winter of the Wolves' by Tony Bradman to practise our reading and discuss elements of the text. This will really immerse us in our History topic– Invasion. In our writing we will be focusing on sentence structure and punctuation before delving into our first unit of creative writing.

Religion and World Views (RWV)

In RWV, we will be exploring the big question: Why do we celebrate? As part of this interesting study, we will explore different reasons people celebrate and how we may celebrate both good things and difficult things.

Science: Food and the Digestive System

This project teaches children about the human digestive system. They explore the main parts, starting with the mouth and teeth, identifying teeth types and their functions. They link this learning to animals' diets and construct food chains to show the flow of energy.

French: portraits

We will be learning how to understand, name and write colours in French, and to learn the body parts in French.

History: Invasion

This project teaches children about life in Britain after the Roman withdrawal. Children will learn about Anglo-Saxon and Viking invasions up to the Norman Conquest.

PSHE: Me and My Relationships

Children will enjoy exploring families and friendships and what they should accept and expect in these relationships. They will explore what makes a safe relationship and how relationships can make us feel different emotions.

PE: Hockey and Swimming

We will be learning Hockey in our PE sessions. We will focus on learning to collaborate with others in team games as well as passing and dribbling. Cedar Class will also be focusing on the all important life skill of swimming.

Art: Warm and Cool Colours

This essential skills and knowledge project teaches children about colour theory by studying the colour wheel and colour mixing. It includes an exploration of warm and cool colours, Aboriginal art and how artists use colour in their artwork.

Music: Combining Elements

Children will learn how music relates to history, stories, our past (and our future!); this theme is relevant to learning topics such as cultural identity, changing ideas and inventions over time, creativity, film, TV and communication.

Geography: Interconnected World

This essential skills and knowledge project teaches children about compass points and four and six-figure grid references. They learn about the tropics and the countries, climates and culture of North and South America. Children identify physical features in the United Kingdom and learn about the National Rail and canal networks.
